Human values help in understanding the attitude, motivation, behaviour, and also influence one's perception about the world. They enable the interpretation of “right and wrong” and provide the ways to understand humans and organizations.

Ethics is an activity which concerns with the investigation of moral values. A Teacher should have an ethical and social responsibility to herself, her subordinates and to the society. The set of standards adopted by professionals is called as Professional ethics. Every profession like teaching, medicine, law etc has its own professional ethics. The Code of Conduct listed by the College to be followed by all Teaching Faculty members was also discussed in detail.

The Code of Conduct to be followed by Faculty members were discussed and the Programme came to end with refreshments.

Thus, the Teacher Orientation Programme gave a clear picture of the design of the Annual Pedagogical Plan to be carried out for the academic year 2017-2018 with much emphasis on Research and Outreach Activities.
